WORK EXPERIENCE

Senior Full Stack Developer | OpenXcell (CMMI Level 3) **2023-NOW**

- Leading development of client-facing and enterprise applications using React.js, Next.js, Redux, Node.js, Sequelize, and Azure Serverless Functions.
- Implemented real-time features (WebSocket alerts) and optimized backend APIs for scalability and secure transactions.
- Delivered multiple projects end-to-end, ensuring on-time delivery, high code quality, and adherence to best practices.

Frontend Developer | Confiance Pvt. Ltd. **2022-2023**

- Built and optimized booking/catering platforms for African clients using React.js and UI libraries.
- Focused on scaling, performance, and frontend user experience, while also gaining exposure to backend development.

Web Developer | DRC Systems **2021-2022**

- Started working on live client projects, including e-commerce, chat, and news applications.
- Gained hands-on experience with frontend-backend integration and improving usability, building a foundation in full stack development.

Web Development Intern | Smart Monkey **2020-2021**

- Built CRUD systems, chat apps, and small games while learning HTML, CSS, and JavaScript.
- Strengthened web development fundamentals by applying concepts in practical mini-projects.

PROJECTS

BHL - Transport Management System

Web and mobile platform for managing trips, vehicles, drivers, and fuel logs.

- Designed and built the Admin Panel from scratch with secure role-based access control.
- Integrated WebSockets with GPS Gate for live vehicle tracking and real-time notifications.
- Streamlined trip workflows, including invoicing and POD management.
